CLOUD ENGINEER

I am a computer engineer with 4 years of experience. I am a highly goal-oriented individual with a strong commitment to continuous learning and practical application of knowledge. I possess excellent communication skills and adapt quickly to change, thriving in dynamic environments.

RELEVANT PROFESSIONAL EXPERIENCE

DataOps Engineer   **TIMIA S.A**   **8 Jul – Present**

Cloud-focused support and validation within Azure environments. Responsibilities include reviewing and optimizing data pipelines across multiple Data Factories, managing access controls in Storage Accounts, and handling secret creation and validation in Key Vault.

Technologies: Azure Data Factory, Azure Key Vault, Azure Storage, PowerShell, Azure Portal

Cloud administrator   **Software One**   **March 2024 – March 2025**

Deployment and management of Azure cloud resources such as App Services, Function Apps, Key Vaults, Storage Accounts, Data Factories, Logic Apps, and APIs through API Management. Tasks included refining access policies, applying best practices guided by Azure Advisor, and administering network services. Additionally, developed PowerShell scripts to generate custom reports and streamline operational insights.

Technologies: Azure App Service, Azure Functions, Azure Key Vault, Azure Storage, Azure Data Factory, Logic Apps, API Management, Azure Advisor, PowerShell, Azure Networking

Cloud administrator   **Bizagi**   **Sept 2023 – Feb 2024**

Handled cloud-related requests including subscription creation and resource deployment through BizAgi's native application. Executed database scripts and supported service migration to Azure, ensuring smooth transitions and operational continuity.

Technologies: Azure Subscriptions, SQL Server, PowerShell, Azure Migration Tools

Cloud administrator   **Software One**   **Sept 2018 – Aug 2023**

Provisioning and configuration of Azure resources including App Services, Function Apps, Key Vaults, Storage Accounts, Data Factories, Logic Apps, and APIs via API Management. Responsibilities include access control adjustments and implementation of best practices based on Azure Advisor recommendations.

Technologies: Azure App Service, Azure Functions, Azure Key Vault, Azure Storage, Azure Data Factory, Logic Apps, API Management, Azure Advisor
